RE: AMCD Raw Water Line Repair July 14, 2025

Arbuckle Master Conservancy District will be performing repairs to the raw water line that feeds the City of Davis Water Treatment Plant. The repair is expected to take 8-12 hours to complete. During the repair on July 14, 2026, Davis Water Treatment Plant will not receive any raw water, In preparation for this repair, we will be restricting water usage in the days leading up to this repair to allow all towers for West Davis Rural Water to be completely full when the repair begins on the morning of July 14, 2026.

From July 11, 2026 to July 16, 2026:

- No irrigation or watering lawns
- No washing vehicles
- No filling pool, fountains or ponds
- Indoor water use should be minimized wherever possible.

Tuesday, July 14, 2026, the day of the repair:

- No outdoor watering of any kind
- No washing vehicles, sidewalks, driveways, or buildings
- No pool or spa filling
- Limit shower times, dishwashing and laundry to absolute necessities.

Once repairs are completed, it will take time for the City of Davis Water Treatment Plant to recover and for West Davis Rural Water to refill all the water towers. If everyone conserves during this time we should not be without water.
